“beautiful brute”

. . . looks sleek and it GOES! It's easy for you to custom tailor a "personalized" car if you use an integrally stressed Kellison fiberglass body. The Kellison is available in coupe or roadster form, will fit 85- to 106-inch wheelbases. This gives you plenty of flexibility with chassis components. And, best of all, Kellison's lightweight construction lets you find the hidden horses in whatever engine you choose.

Ready-to-mount body includes firewall, floor pan, inner wheel wells, headlight receptacles, dash board, door jambs, hinge boxes and drive shaft tunnel.

Kellison's illustrated catalog has details on body accessories and mechanical components. It's available for \$1, refundable with any order.
